

Chemical Safety and Regulatory Support

Intertek Assuris

Intertek Assuris helps customers in highly regulated industries achieve local, regional and international compliance. With offices located around the world, we have established a strong, direct network with local as well as regional trade associations and government authorities. Our experts speak the local language and live the local culture.

Our services

Notification/Registration of New Chemicals

Notification of chemicals worldwide – Europe (REACH), USA, Canada, Japan, China, Philippines, South Korea, Taiwan, Australia and other countries. From design of testing protocols and dossier preparation to a full notification/registration program. This includes hazard classification and risk assessment.

REACH

Comprehensive regulatory support and guidance

- Strategic consulting, pre-registration, registration, consortia management and SIEF/consortia representation, legal representation in EU ('only representative')
- Including integrated test strategies/non-testing, identification of analogues/read across/grouping, data evaluation (Klimisch criteria), collecting relevant data from public domain, chemicals safety report preparation, classification and labeling, risk and exposure assessment/scenarios, dossier preparation and submission

Food Contact Compliance and Notifications

Guidance in the key steps to achieving compliance of food contact materials, end-use articles and for commercialization of new products into the market.

- End-use testing on final articles to achieve China, US and EU food contact compliance
- Food contact notifications
- Gap analysis for compliance with EU and China Good Manufacturing Practice regulation on food contact applications
- Sustainability services such as the use of recycled plastics in food packaging and clearance of biopolymers for food contact applications
- Registration of medical devices and biocides

Global Chemicals Management and Restricted Substance Compliance

- Regulatory compliance training (RoHS, REACH-SVHC, POP, WEEE, CA Prop 65, China RoHS, etc.)
- Restricted substance management to reduce testing effort
- Restricted substance compliance auditing and assessments
- Product certification (Intertek's Green Leaf) demonstrates a product has

been independently tested and found to conform to existing environmental regulations

- EPR services - Extended Producer Responsibility compliance assessment and implementation (WEEE, battery, packaging)

Toxicology Services

Intertek's expertise in collaboration with selected partners delivers toxicology testing services and regulatory management.

- QSAR modeling (structure activity relationships) for human safety and environmental effects
- Environmental exposure modeling and assessments
- Quantitative cancer risk analysis
- Registration under REACH or assessment in HPV programs
- Profiles for hazard classification of chemicals
- Protocol development and preparation of reports to meet international regulatory standards
- Design and Optimization of Toxicity and Ecotoxicity Studies
- Global existing substance risk management support including US TSCA and Canadian CMP

Global Legislation Development and Training

Intertek provides information and advice services tailored to your needs covering legislation around the world. Special training sessions, in-house or at the customer's sites, are organized involving internal experts as well as external worldwide recognized specialists.

Product Safety and Hazard Communication

- Preparation of new and updated SDS in compliance with Global Hazcom Regulations including REACH Regulation EC 1907/2006, WHMIS, US Hazcom 2012
- Classification of substances and/or products to determine the need for labeling
- Identification of gaps and required changes and implementation of changes
- Translation into alternative languages
- Trade secret support for confidentiality claims
- Consumer chemical product classification, labelling and supporting document development

Biocides, Pesticides and Agrochemicals

Registration and consulting support services for Europe, Canada and the U.S.

- Pre-submission consultations
- Study placement and monitoring
- Dossier preparation (including waiver requests, scientific rationales, data positioning)
- Liaison with regulators and submission shepherding
- Amendments to registrations
- Sales and Establishment Reporting
- State registrations (U.S.)
- Agent services
- GLP, GMP, and GCP-compliant analytical laboratory testing services: physical and chemical parameters, quality/purity, residues, contaminants, shelf-life/stability

About Intertek

Intertek is a leading Total Quality Assurance provider to industries worldwide. Our network of more than 1,000 laboratories and offices in more than 100 countries, delivers innovative and bespoke Assurance, Testing, Inspection and Certification solutions for our customers' operations and supply chains. Intertek Total Quality Assurance expertise, delivered consistently with precision, pace and passion, enabling our customers to power ahead safely.

Total Quality. Assured.
